estrichter.com · @est.richter

Estefan Richter is a Brazilian visual artist, graphic designer and art director based in Amsterdam. Raised near São Paulo, he developed his design sensibility alongside an active music scene, making logos, posters and merch for local bands before graduating with a B.A. in Graphic Design in 2014.

A hands-on generalist with a strong focus on concept and experimentation. Shaping experiences, designing big and small visual projects across a wide range of disciplines. A deep love for the analog, casual archivist and old soul with an eye in the future. Ideally ahead of time, realistically too late.
